THE CONVENTION OPENS MOST FAVORABLY

Hearty Welcome Accorded

Bow River Constituency U.F.A. Association opened their annual meeting at Gleichen yesterday at 10:30 a.m. with about 130 visitors and delegates present. President P. H. Donkin, of Ardenode, occupied the chair and J. H. Schmaltz, of Beiseker, was assistant chairman. Rev. Mr. Corcoran, of Gleichen, gave an invocation and an address of welcome was given by Mayor Purcell.

Mayor Purcell started off by saying he considered this the most important and most representative gathering he had yet been asked to welcome to Gleichen, and he considered the reasons advanced very good reasons for the executive of the Association to select this town for their convention. Gleichen perhaps had not so very much in the way of accommodation, and so forth to offer as a city and so appreciated all the more the decision of the executive, and he was pleased to extend a welcome on behalf of the citizens of Gleichen.

Mayor Purcell also announced the hotels extended a welcome and free accommodation to the visitors. A tent had been erected for their use at the auto grounds. Also the ladies rest rooms were available in the new town office, next door to the Royal Bank.

The routine business of reading the minutes of the last annual meeting and two board meetings and appointment of committees took up the morning session. After lunch several resolutions were passed, one asking the Provincial government when constructing new telephone lines to place them back one foot from the fence line to allow the use of larger road machinery when constructing or repairing roads. Convention also favored the increase of indemnity for federal members, and one protesting against spending money to assist settlers coming from Europe, and also opposed fees for examinations in schools.

Mr. Claypool, M.L.A., of Didsbury then gave an interesting address on the proposed co-operative packing plant. Mrs. Jack McArthur, of Gleichen sang a solo also Mrs. Green, of Berrywater Local.

Mr. Perrin Baker, minister of education, then gave an interesting address on the proposed school bill. Mr. Baker spoke for some length and was listened to attentively and he answered many questions from all angles. The convention then passed a resolution endorsing the proposed bill.

Another resolution protesting against the Canadian liquor going into the U. S. carried, also asking the federal government to issue new elevator tickets, replacing the so called hybrid ticket, in time for this year's crop. A. U. F. A. dance to which all the town people were invited took place in the evening.

As the Call goes to press this morning the convention is proceeding, and E. J. Garland, M. P., is to speak this afternoon, while for tonight more entertainment is provided.

Gleichen is displaying all the bunting obtainable and the town wears a real holiday appearance. Already several of the visitors have expressed to the Call their appreciation of the hearty reception Gleichen is according them.

MINUTES OF BLACKFOOT M.D. MEETING

SEVENTH MEETING 1929

Meeting of the Council of the M.D. of Blackfoot, No. 218 held in the Municipal Office, Gleichen, Tuesday, July 16th, 1929.

Present: Reeve Thorsen, Deputy Reeve Emma McBean and Councillors Dave, Raymond, David McBean and Wheatley.

David McBean: That the minutes of the previous meeting be adopted as read.—Carried.

Deputy Reeve McBean reported that the committee appointed at last meeting had looked over the ground where the road was proposed to be straightened south of Section 15-23-23-4th, by altering the canal course and owing to the expense involved, estimated at \$1200.00, the proposal could not be considered at the present time.

The secretary treasurer reported: That title had been received from the C.P.R. for Blocks "A", "B" and "C" Hamlet of Chancellor subject to the condition that the land be reserved for park purposes.

Mr. N. C. Anderson's verbal notice to the effect that he had purchased the W. 1/4 31-23-21 and intended fencing same which would close the trail across this land was conveyed to the Council. No action was considered necessary as the closing of this trail was the owners privilege.

Coun. Wheatley: That this matter be left in the hands of the road commissioner and the secretary-treasurer.—Carried.

Coun. Thorsen: That the expense of destroying weeds on roads be charged against Divisional Appropriations.—Carried.

Coun. David McBean: That we order a 200 lb. drum of Atlascide Weed Killer from the Chipman Chemical Limited.—Carried.

A delegation from Div. 2 and 4 and from the Villages of Husar and Standard handed a petition to the council signed by 75 persons requesting the bringing up to standard highway specifications that portion of the Husar-Calgary Road in the Municipality and the four miles of road south from Standard connecting with this highway.

The council explained that the whole of the income and capital grants for 1930, subject of course to a change in the personnel of the Council, would be expended during the season of 1930 on those roads and that no work would be undertaken until that time except to meet emergencies.

Attention was now drawn by this delegation to the condition of the bridge N. 12-24-22-4th, and the condition of hill south of 18-24-21-4th and a letter was read from Moffat, McKay & Co. claiming on behalf of Mr. N. W. Thompson damage to fences and lands by persons unable to use the road over the hill during wet weather.

The road commissioner stated that a 20 foot span had been received for bridge N. 12-24-22-4th, and that a 40 foot span was necessary. The bridge foreman had started the work but was unable to get the extra timber required and had removed east.

Mr. N. W. Thompson supported his damage claim and Councillor Wheatley favored an appropriation of \$75.00 to gravel this hill. Councillor Maynard objected to an appropriation but offered to assist by transferring \$25.00 from his Division to Division 11. Councillor Wheatley then promised to use \$25 of division's 2 money and do what he could. Mr. N. W. Thompson then withdrew his damage claim.

Before retiring the delegation thanked the Council for doing what they could reasonably be expected and for the information given.

Reeve Thorsen thanked the delegation for their kindly consideration.

Coun. Maynard: That this Council after hearing the delegation from the north and east proceed and request the Department of Public Works to complete the bridge north of Section 12-24-22-4th.—Carried.

The Municipal Inspector for Mother's Allowance reported a new applicant and he expected to have the application completed towards the end of this week.

Coun. Wheatley: That the Municipal Mother's Allowance Inspector submit completed application for allowance to receive for his O. K.—Carried.

Coun. Wheatley: That arrangements be made for survey of the necessary alterations to road surveys situated upon the following lands: S.W. 2-23-23-4th. N.W. 8-23-21-4th. N. 24-23-21-4th; N. E. 31-24-22-4th.—Carried.

Coun. Wheatley: That the current taxes against Blocks "A", "B" and "C" Hamlet of Chancellor and upon land sold off the N.W. 24-24-23-4th. be paid.

PIONEER ELEVATOR DESTROYED BY FIRE MONDAY

Loss Estimated at \$20,000

Contract Let to Rebuild

Monday night the two elevators owned by the Pioneer Elevator Co. burned to the ground, estimated at a loss of about \$17,000. At the time there was only about one carload of wheat and 300 bushels of barley in the two elevators.

About 9:35 Monday morning the siren first announced a fire in the Pioneer and the fire brigade lost no time getting into action.

Smoke was first noticed issuing from the elevator where the drive shed roof joined the elevators on the north side by Cell (Wray) at the Imperial Oil warehouse which was so small and looked like dust that he phoned to S. E. Dufosse, at his oil station, who also could not tell whether it was dust or smoke, but taking no chances sent in the fire alarm. The fire was discovered to be burning in a little room off the weigh scales, where grease and waste was stored. It was believed the strong sun shining through the window pane had ignited the waste as the place was very hot being closed for days past. The fire boys quickly extinguished the blaze and poured in ample water.

All day R. C. Clifford, manager of the elevator, stayed around the elevator watching closely for any further indications of fire. Finally he closed up between five and six o'clock that evening, and although many passed near by no further signs were noted until about 11:45 p.m. when a burst of flames issued from the south side of the elevators and in a few moments the entire town was lit up and the roar and crackling could be heard a long distance.

The 22nd Battery boys were all ready to board their special car to proceed that night to Sarcee, and made quick work of once more bringing out the reels and laying a hose line to the elevator. By that time there was no hopes of saving the big double elevator and attention was given to saving R. S. McQueen's coal sheds and the Alberta Pacific elevator to the east with good results.

Several freight cars were moved to safety north of the elevator, but a car that had been spotted to load early next morning was destroyed.

Burning shingles from the fire was carried across the railway tracks and away over on the Blackfoot reserve where Agent Gooderham had a good crowd busy fighting to keep down a prairie fire and a stack of hay nearby.

During the afternoon a very heavy wind blew from the west and had the fire broke out then there is no telling how the other elevators and most of the business section would have fared. Later the wind shifted to the north and fortunately had died down just before the second outbreak.

Much credit is due the young lads who worked like little trojans with the fire brigade and thoroughly enjoyed it.

Inspector McCurdy came down from Calgary early Tuesday morning with the fire insurance adjusters and the insurance was settled at \$17,000.

While here Mr. McCurdy arranged a contract to rebuild a single elevator for \$15,000, work to start as soon as the material can be placed on the ground.

diversion be cancelled.—Carried.

Coun. Thorsen: That all penalties added July 1st, upon taxes covered by roadwork earned before that date and penalty or remittance from W. and M. Schuman delayed in mail until after the end of month be cancelled.—Carried.

Coun. Wheatley: That upon grounds of cultivation current wild lands taxes on part N.W. 2 and S. 11-23-23-4th \$35.20, and part S.E. 31-23-24 50 cents, be exempted.—Carried.

Coun. Maynard: That we sit as a Court of Revision for the 1928 annual assessment of the Municipal Office, Gleichen, Tuesday, August 13th.

CHAUTAUQUA WILL COME AGAIN

It is a most difficult matter to please every person all the time, but Chautauqua managed to please everyone at least in some part of the six-day program. While many of the entertainments, more especially Martin-Erwin plays were very popular, there were some that did not meet with the expectations of the big crowd that filled the big tent each night and afternoon. Perhaps the lack of snap shown by the superintendent had something to do with the usual enthusiasm of other years.

However, the fact that Chautauqua is again signed up to come to Gleichen next year is the best possible indication that it is wanted, although it was very difficult to get some of the signers this year, and at the close three more signatures were still wanted, to get the required 100, which no doubt will yet be secured. Last year 115 signed but as usual a number had moved away and a few did not come for their tickets. Still with the single admissions it is hoped this year the committee will break even.

"The Patsy", a Martin-Erwin play, proved an excellent opening number as stated in last issue.

Wednesday afternoon Middleton's Funny Mankins disappointed a big crowd of children by failing to arrive on time and although the number was given that night it was very short yet thoroughly enjoyed being quite unique.

The same night Vilhjalmur Stefansson's lecture on "The Friendly Arctic" proved easily the most interesting lecture of all, his story of eleven years in the north and the corrections of many impressions we have had of that country was indeed amazing, and alone was declared by many worth the price of the entire Chautauqua.

Thursday afternoon the Toronto Operatic Artists was much enjoyed. Although Miss Johns talk on Australia was rather disappointing to quite a number. However, she had a good voice and her imitations were splendid and in the evening she was one of the most prominent in the concert by the same company.

Friday afternoon the Sunshine Girls took well and again at night, being followed by Major Joseph Hanley's lecture "The Modern Crusader." He is a most fluent speaker and held his audience well on lines that though common should be brought more and more to light.

The Banta Bruce Company impersonations were excellent and also the vocal and instrumental numbers Saturday afternoon. That night "Peg O' My Heart" filled the tent to capacity and pleased everyone. It sustained the Martin Erwin reputation in this town and made it very evident that a play is the most popular entertainment with Gleichen folks.

Sunday night a fair crowd attended the church services in the tent conducted by Revs. Corcoran and Davies, assisted by Ensign Tanner.

The Petrie Quintette was another splendid production Monday afternoon, followed by Major John L. Hill's lecture on South Africa, which was listened to with much interest. The same musicians filled the final entertainment that night, and when the last number of their varied and unique program was announced the entire audience felt very much like the small boys who cried: "Oh, O! O! No, no, more, please."

1929, at 2:30 p.m.—Carried.

Coun. Wheatley: That the accounts contracts and pay sheets as o.k.'ed by the Finance Committee be passed and ordered paid.—Carried.

Coun. Wheatley: That Councillor David McBean act upon the investigating committee in connection with damage claim at pound situated S.W. 22-23-22-4th., in lieu of Councillor Daw.—Carried.

The investigating committee comprising Reeve Thorsen, Deputy Reeve Duncan McBean and Councillor David McBean opened session and upon the reading of the evidence submitted by Alfred Daw and A. N. McLeay ruled that the damages allowed to Alfred Daw for damage to his fence and crop by A. N. McLeay's stock be \$25.00.

HOOT GIBSON HERE SATURDAY NIGHT

Hoot Gibson comes riding into the Gleichen Community Hall on Saturday night in what has been called his greatest screen vehicle. It is "King of the Rodeo," a Universal picture filmed when the recent national rodeo at Soldier's field, Chicago was in progress, the stirring meet forming the background for most of the story.

Gibson is recognized as the leading star in Western pictures of romance and action. In striving for new plots and ideas he thought of the headlined Chicago rodeo on the tremendous field the largest of its kind in the world. He then signed B. M. Bower to write the story with this as a back ground. The noted authoress wrote "King of the Rodeo" in the nature of a sequel to "Chip of the Flying U," one of the former stories in which Gibson scored a great hit.

The star is Kathryn Crawford a recent Universal "discovery" from the musical comedy stage, as leading lady. The supporting cast comprises a group of noted players.

Gibson is seen as a Montana youth who becomes hero of the rodeo through his courage and skill. The events as they are actually run off with the world championship cowboys competing are a part of the story. Gibson is shown competing with them and in many instances out-doing in daring feats of the professional exhibition cowpunchers.

"King of the Rodeo" was directed by Henry MacRae. George Morgan wrote the adaption and continuity.

ROAD MARKING PROGRAM ON BIG SCALE

ADOPTED BY A.M.A.

Marking of Alberta roads to greatly aid tourists has been decided upon by the Alberta Motor Association, affecting operations in both north and south. It is expected that fully \$1,000 will be expended, though it is realized that this will handle but a fraction of what should be done.

A. B. Mackay, president of the A.M.A., expressed his regrets that the Alberta government had not carried out an extensive road marking scheme, when recently in Edmonton. "It was understood that such a policy was to be carried out and it is regrettable that it has not been put into actual effect as yet," said Mr. Mackay. "In my opinion, public men are under-estimating the importance and value of the tourist traffic to this province."

Signs will be placed by the A.M.A. along the Blue Trail, so it was announced by Fred R. Brason, president of the Calgary branch of the association. The program also includes placing of signs on roads to the oil fields, leading in from the north and out from the south; also from Calgary to Medicine Hat westward. The fact that there were numerous complaints caused the association to take action as soon as possible.

President Frank Barnhouse, of the Edmonton branch, said that in the north the program included marking of the highway from Edmonton to Lloydminster, from Edmonton to Jasper, Edmonton to Wainwright, from Edmonton to Athabasca and from Wainwright to Macklin.

MOTORIST FROM BALTIMORE BOOSTS ALBERTA SERVICES

Lavish praise on services given by the Alberta Motor Association to American tourists was recently bestowed by Frank Bell, hailing from Baltimore, Maryland. When he returns home, after his 8,000 mile trip, he intends to give full publicity to the wonderful services of the A.M.A.

Some weeks ago Mr. Bell decided to make the trip to attend the Calgary stampede. He made inquiries at his own motor club and was told that the roads were about impassable. Then he decided to wire the A.M.A. branch in Calgary and was told that he could be routed through in less than half the time he had been told at home. Back came Mr. Bell with a request for road information covering the entire route and necessary hotel accommodation.

Everything was arranged and carried out with the result that Mr. Bell arrived in Calgary three hours ahead of schedule and time of reservations made at the Palliser hotel. He took in the stampede with his family and then left on a further trip into the mountains after receiving full information.

"When I get back home, I will certainly tell the people all about how easy it is to travel in Canada, and the friendliness of the Canadian people," said Mr. Bell. "I was also greatly aided by the accurate information from your auto clubs. I intend to send a large number of motorists to Alberta next year to see the wonderful scenery and the sights we have seen on this very, very enjoyable holiday trip."

After motoring north and west 65

miles, east 30 miles south on about 29 miles and south and east 27 miles the Call still believes this great stampede will continue to hold its record of never experiencing a crop failure. There are no bumper crops, but a few pretty fair, more that will return their seed at advance value and some quite discouraging. The advantage is with the farmer who started to irrigate early, and those who summerfallowed, but that on stubble is gone. However, there appears an advantage: Many farmers can harvest their entire crop without hired assistance and with increased price will probably make as much cash as they did last year with a big yield and low price.

FOR SALE—Spring Browsers, weight about two pounds, fifty cents each. W. H. Goodwin, R202, Gleichen.

Copyright, 1928, Warner Bros. Pictures, Inc.

SYNOPSIS

Marcus, the famous Broadway producer, heads a party of four that visits Blackie Joe's night club in downtown New York. Al Stone, Blackie's chief comedian and singing waiter, takes the order for beer. Grace, the cigarette girl, is in love with Al, but he doesn't know it. As he returns with the beer he encounters Molly, the ballad singer, whom he loves ardently. He begs her to sing a song he has just written. Molly is disdainful toward him. Blackie Joe tells Molly that the great Marcus is outside and she makes him promise to introduce her. When Al rushes back to her dressing room she refuses even to read his song. He sees it on the floor under her feet!

CHAPTER IV.

Al could scarcely believe his eyes—his song, the heart-throb ballad he had poured forth from the depths of his soul, lying on the floor unnoticed, under Molly's sharp and careless heel!

He raised his gaze as he felt Molly about to sweep by him. Scarcely knowing what he was doing, he seized the angry girl in his arms, pulling her close to him, staring beseechingly into her eyes. She tried to pull away, but his grip of steel held her.

"Molly!" he pleaded. "Didn't you even read it?"

Again Molly tried to escape, succeeding this time. If she had been angry before she was blazing now.

"How dare you try to stop me? I told you I had important business out in front tonight! You bothersome idiot—you've almost ruined my make-up!"

She returned to her dressing table and began dusting her arms and shoulders with powder. On the lapels and sleeves of Al's coat were the heavy white marks of the powder. But he did not notice them, nor did he hear her words. Slowly he stooped over, like a man in a dream, picking up his song. He saw the sharp print of Molly's steel-rimmed heel across the music. It had almost cut through the paper, and he stared at it for a long moment. It was as if that little heel had cut into his heart.

Again she headed for the door, reaching the corridor. Then she realized that Al was following her and she turned about, determined to settle him once and for all. Her blue eyes were glittering and her voice had a rasping, harsh quality.

"Al Stone, get this through your head. I won't have anything to do with you. I'm not going to marry you or any other waiter!"

With vitriolic sarcasm she emphasized the word "waiter." Then with a flit of her skirts she disappeared down the corridor. A moment later she was in the main room and had forgotten Al entirely, for she saw the figure of Marcus, czar of the Broadway revues, with his party at the ringside table across the dance floor.

At once her manner and expression changed. The calculating gleam in her eyes was masked by a soft, bright, friendly look; her body, which had been rigid with anger a moment before, relaxed so that she moved toward the Marcus table with an easy, sensuous walk. She was a very pretty girl at that moment. No one would have believed her features had been distorted by rage just a moment before; no one would have thought that she could treat a man as cruelly as she had just treated Al. But Molly was burning with ambition and she saw in Al only a love-lorn man who would be a hindrance to her in her climb toward fame. So she treated him ruthlessly, not because she disliked him, but because he got in her way. Her feeling toward him was neither love nor hate, it was just indifference. If he had been rich, powerful or socially distinguished, Molly would have played up to him like a soft and affectionate kitten. But—he wasn't.

Meanwhile, there sat Marcus, fifty feet away, chatting amiably with his companions and occasionally sending a bored glance toward the cabaret show that was in progress on the rectangular floor a few feet from his table. Molly studied his face and began to plan her course of action.

"What shall I do to make him like me," she whispered softly to herself, "baby stuff or a more sophisticated line? He looks so sophisticated himself, so maybe the baby stuff will go better. Remember, Molly darling, that man can make you famous on Broadway if he likes you. But where—"

She cut short her unspoken soliloquy to look about for Blackie Joe, who had promised to introduce her to Marcus. Finally, she located him talking to some customers. She moved over to his side.

"Blackie."

He looked up.

"You know—" she said significantly. "I'd like to meet him before I do my songs. Then he'll be more interested in watching my stuff."

"Wise little girl," said Blackie, patting her on the arm. "Yes, I know. I'll give you a knockdown right now."

He took her by the hand and led her toward the Marcus table. She saw Marcus's eyes rise to meet hers, then Marcus himself was standing in response to Blackie's genial introduction. As if from a distance she heard Blackie's voice: "Mr. Marcus, this is one of my most talented performers. Molly, may I present the most celebrated producer and picker of pretty girls on Broadway?"

Marcus smiled and courteously made way for Molly to sit down beside him. He knew that was what the girl wanted and he was willing to be polite about it for Blackie's sake. But to say that he was interested in Molly would be rank exaggeration. He had too many superbly beautiful girls in his revues to be impressed by one who was merely pretty.

Nevertheless, he addressed a few well-bred remarks to Blackie's singer and Molly, priding herself on her conversational gifts, came back in

the most animated manner. But in a moment Marcus turned from her as the young actress on the other side of him engaged his attention.

Molly studied this girl closely, her gleaming jewels, her lovely little baby-doll face.

"There is a girl," thought Molly, "that Marcus is making famous. I'll say she looks like money, yet she's no prettier than I am. This man can put me on the map, too."

But at the moment it certainly appeared as if Marcus hadn't the slightest intention of helping Molly. In fact it seemed as if he had forgotten her presence entirely.

Meanwhile, the singing waiter, whose love she had flouted, paced the corridor leading to Molly's dressing room. For a moment he stopped and stared at the crumpled song-sheet he held in his hand, his face the picture of dejection. Outside were the syncopated rhythms from the jazz band and the staccato beats of a pair of tap dancers in action, but the only sound that echoed in Al's ears came from Molly's parting words. They seemed to reverberate through his whole body, like the dirge to his hopes and love. At last he realized completely that his chance of winning Molly was an utterly lost cause.

Dull despair crept over him and the sheet of music slipped from his unresisting hands. Mechanically, and without knowing what he was doing, he stooped and picked it up. Then the title of the song across the top caught his eye—"Always."

"Always"—what a fool he was to write a song like that, fondly believing it would touch her heart and that she would share his enthusiasm for it! Swiftly he crumpled the song-sheet in his fist, as if to wipe the memory of its creation.

In the distance, from a corner of the main room, Grace, the cigarette girl, was watching him sympathetically and intently. She had seen him talking to Molly. Vaguely she sensed the cause of his despair.

But Grace, loving him generously, thought not of herself nor of Molly, but only of some way to help Al in this time of trouble. Al, the gay, wise-cracking, singing waiter, had lost his pep and energy; Al, of the kindly, handsome mouth, of the deep, warm, glowing brown eyes; Al, who had been her best friend at Blackie Joe's—was suffering. She knew he didn't love her and considered her only a sweet child, but that didn't matter.

Giving a quick glance around, Grace stepped into the corridor and approached him on tiptoe. Al felt a light touch on his sleeve and heard a soft, sympathetic voice at his shoulder. He gave a start, thinking, in a mad burst of hope that it might be Molly. Then he looked down into Grace's eyes.

"What's the matter, Al?"

(To Be Continued.)

New Canadian Record

Official Altitude Record Of 20,000 Feet Made By Special Pilot

Captain J. D. Parkinson, special pilot of the Curtiss-Feld Flying Services, Ltd., Montreal, established an official Canadian altitude record of 20,000 feet in a cabin monoplane. He carried a sealed barograph.

The previous Canadian record was 18,000 feet, established by Captain Leigh Capel in a Moth plane.

Captain Parkinson's flight occupied one hour and 28 minutes, of which one hour and two minutes was occupied in the climb upwards.

Lightning and Thunder

Lightning is a sudden illumination of the sky caused by a discharge of electricity from one cloud to another, from a cloud to earth, or from the earth to a cloud. Thunder seems satisfactorily explained by the fact that the electric discharge, in forcing its way through the atmosphere, heats the air and the vapor lying in its path to a very high temperature, causing a violent expansion along its entire length. The result is a steep compression wave, or what amounts to the same thing, a noise.

Just a Try-Out

The doctor had received an urgent call from the home of a young couple. Arriving, he found the young father on the doorstep, watch in hand.

"What's the trouble?" asked the doctor.

"Nothing this time, doctor. My wife just wanted to see how quickly you could get here in case she was taken suddenly ill. You did it in four minutes this time."

Dorothy, aged 6, had been punished for answering back. From the corner came an aggrieved voice:

"I can't think how it is, mummy, you can be as rude as you like to me, and nobody says a word to you about it."

How School Teacher Gained 18 Pounds and New Energy

"I am a public school instructor," writes Mr. Linus L. Clark, "and from my study I was convinced that Ironized Yeast was exactly what I needed to put me in shape. I took only two bottles and gained 18 lbs. More than that, Ironized Yeast brought more energy, greater endurance and an improved complexion."

You can believe letters like this. Thousands who were doubtful at first write they gained 5 to 20 pounds often in 3 weeks. "Skinny" limbs changed to graceful roundness. Skin clears. Tired feet vanish. Only when Yeast is Ironized is it more effective—for Iron is needed to bring out the weight-building and strengthening values of Yeast. Pleasant tablets in a handy bottle. Safe for everybody. Never cause gas or bloating, no harmful drugs.

Go to any druggist today and get a full size treatment of Ironized Yeast. If after this generous trial you are not delighted, get your money back from druggist or manufacturer. If inconvenient to buy from druggist, send \$1.25 direct to Canadian Ironized Yeast Co., Ltd., Fort Erie, Ont. Desk 425-BY.

This Fragile World

Even Rocks Have No Permanence When Earthquake Occurs

If anything on earth seems to have permanence it is the rocks. Yet even the rocks shudder, and the hard surface of the earth explodes. Earthquakes are reported again from Bulgaria and from Argentina; and the deadly lava streams are once more sweeping down the slopes of Vesuvius. And for all the march of modern science we know little more to help us predict the time and location of these outbursts than men did in ancient Rome when cattle grazed placidly where the crater of Vesuvius is now boiling. The Carnegie Institute of Washington is sending an expedition to the Tanganyika district in Africa, to the vast rock-heaps of the Himalayas, to the smoking islands about Java, and to the uneasy shores of Japan to study the mechanism of earthquakes, but to the Italian peasants who watch the lava streams creep up to their homes and the homes of their fathers the boiling over of the earth is still as awesome a mystery as to a tropical savage.

"Ab ira, Vesuvii libera nos, Domine," the Italians pray, as they kneel before an image of the Virgin which is reputed to have stayed the lava flood 179 years ago. The peasants hang little colored lithographs over their favorite saints upon the menaced vines in their vineyards, just as the Chinese hang paper images of heathen household gods. Science says that it is all superstition in Java, Japan or Italy; but science itself has no faintest hint of charm to stay the fire. Science can devise normally earthquake-proof houses and, in some cases, predict the activity of well studied volcanoes; but it can only observe and guess. Yet science at least has its heroes of observation. Every phase of Vesuvius's present activity is being recorded with minute precision. Rivers of living fire are pouring steadily out of the volcano's crater, where the molten rocks are boiling at an estimated temperature of 2,000 degrees Fahrenheit, but Professor Alessandro Malladra, director of the Vesuvius Observatory, is still at his post, aglow, probably with the opportunity to learn more of the volcano's secrets, and hour by hour the telegraph sends his bulletins from the crater's edge.

Jasper Park, Alberta, with an area of 5,300 square miles, is the largest park in North-America.

Cramps Diarrhoea Pains in Stomach

Mr. Roy Lighthall, Milford, Ont., writes: "I became very ill; lost my appetite, had cramps, diarrhoea, and severe pains in my stomach."

"I purchased a bottle of D'Fowler's Wild Strawberry and before I had taken half of it I was completely relieved, and have had no symptoms of the trouble since."

"I cannot praise 'The Extract' too highly, and will never be without a bottle of it in the house."

"It is pleasant to take and acts very quickly."

"My brother had the same experience with it as I had."

"Dr. Fowler's" has been on the market for the past 84 years; you don't experiment when you buy it. Price 50 cents a bottle at all dealers; put up only by The T. Millburn Co., Ltd., Toronto, Ont.

Defeated By Narrow Margin

Canada's Diamond Sculls Winner Beaten By Holland Oarsman

L. Gunther, of Holland, is this year's winner of the Diamond Sculls, emblematic of the amateur rowing championship of the world. In the finals, over the famed course at Henley-on-Thames, England, he defeated Joe Wright, Jr., of Toronto, Canada's premier oarsman, in one of the closest and most gruelling encounters this famous event has yet evoked.

Wright was the Diamond Sculls winner last year, and he has come within an ace of winning the great award three years in succession. In 1927 he was robbed of the honor by a "fluke"; this year he was beaten by only a yard, and after there had been exceptionally severe demands upon his strength and stamina in preliminary contests. He has established himself as one of the greatest oarsmen this country has produced, ranking with Hanlan and Scholes, also of Toronto. Still in his early twenties, he has a good chance to win the Sculls again.

Britain leads the world in the fame of its sculling events but every community in this country which has a suitable body of water should endeavor to foster rowing. It is one of the greatest of sports—wholesome, fascinating and altogether worthwhile.—Regina Daily Post.

RED HOT JULY DAYS HARD ON THE BABY

July—the month of oppressive heat; red-hot days and sweltering nights; is extremely hard on little ones. Diarrhoea, dysentery, colic and cholera infantum carry off thousands of precious little lives every summer. The mother must be constantly on her guard to prevent these troubles, or, if they come on suddenly, to fight them. No other medicine is of such aid to mothers during the hot summer as is Baby's Own Tablets. They regulate the bowels and stomach, and an occasional dose given to the well child will prevent summer complaint, or if the trouble does come on suddenly, will banish it. The Tablets are sold by medicine dealers or by mail at 25c. a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Little Helps For This Week

"I will teach you the good and the right way.—1 Samuel xii. 23.

Live to do good; but not with thought to win.

From man return of any kindness done.

Do naught but good; for such the noble strife.

If virtue is, 'Gainst wrong to venture love.

And for thy foe devote a brother's life.

Content to wait the recompense above.

Brave for the truth, to fiercest insults meek.

In mercy strong, in vengeance only weak.

—G. W. Bethune.

He began to talk very gently about different sorts of kindness, and that if I wished to be kind like a Christian, I must be kind without hoping for any reward, whether gratitude or anything else. He told me that the best followers of Jesus in all times had tried hard to do every thing, however small, for God's sake, and to put themselves away.—Julian Horatia Ewing.

Industry Is Growing

The silver fox industry last year produced a revenue of \$4,500,000, with profits exceeding \$2,000,000. Pelts were quickly absorbed by an increasing market, and new openings are occurring, not only in Canada and the United States, but in South America and Europe. Live foxes sold last year at prices varying from \$300 to \$1,500 a pair.

Superstitious About the Moon

In the Middle East exposure to the rays of the moon is said to cause nightmare as well as headaches, and in the Far East a morning "thick head" is added to these symptoms. In Burma there is a belief that when the insane suffer from mental storms, these correspond to the phases of the moon.

Historic Flag For Canada

It was announced that one of the flags from the cenotaph in Whitehall will be sent to Canada in Earl Jellicoe's name, and will be replaced on the cenotaph by another. The intention is to press for a flag which has flown on the London cenotaph for each of the Dominions.

"How is your husband? I have not seen him for a long time."

"My husband? I don't know how he is. When I go home he is out and if he is at home, I go out."

Making Good Progress

Irish Free State Can Now Challenge Farm Products Of Other Nations

Canadians are in a position to congratulate the citizens of the Irish Free State. The latter have brought their financial year to a close with a surplus of \$70,000, and no fresh taxation is contemplated for the coming year. The Government, moreover, is making determined efforts to attract more trade. A steam yacht recently was lying at anchor in the Clyde with a remarkable cargo aboard—a comprehensive assortment of the best known commodities produced on Irish soil. The vessel also paid visits to Liverpool and Cardiff to show the people there what Ireland can sell them.

This is in accord with the progressive movement begun last year to popularize home-grown commodities from Ireland—principally those connected with agriculture. The efforts to raise and standardize quality and to increase output are being attended with distinct success. There was room for improvement, as the Ministry admitted, but the strict regulations laid down by the Government have been productive of highly beneficial results.

The former careless, haphazard methods of the farmer are today largely a thing of the past. Moreover, the raising of stock standards has been followed by improvements in the quantity of produce. Today the Free State is challenging with confidence the farm produce of other nations so far as ham, butter, eggs and bacon are concerned. The floating exhibition now in British waters will help to drive this fact home. It is not a new idea, but it is one well worth copying when opportunity arises.

It takes 60,000 tobacco seeds to make a tablespoonful.

New Use For Dirigible

Airplane Can Attach Itself To Airship While In Flight

Establishment of the airship as a weapon of offence instead of merely an instrument of reconnaissance was seen as a development of a successful experiment in attaching an aeroplane to the dirigible Los Angeles while in flight.

While naval officials maintained the utmost secrecy concerning the experiment carried out over uninhabited country in south Jersey, it was learned a regular naval monoplane succeeded three times in attaching itself to the bottom of the huge airship. Contact was made by a hook on the upper wing of the plane and a rigid trapeze suspended from the hull of the dirigible.

The Phoenicians were the greatest navigators of their time, their ships carrying the treasures to all the Mediterranean countries and as far as the British Isles, where they came in search of tin.

Corn cannot exist when Holloway's Corn Remover is applied to them, because it goes to the root and kills the growth.

The Diesel electric locomotive of the Canadian National Railways is the highest powered in the world.

ARROWOOD, ALBERTA

You'll like the Easy Riding com- fort of the Ford Car

THE Ford car is one of the easiest-riding cars
on the road because of its low centre of gravity, min-
imum unsprung weight, Houdaille hydraulic shock
absorbers and the unique construction of its trans-
verse springs.

Furthermore, you are as comfortable in mind as in
body when you drive the Ford car. You have confi-
dence in the performance of the car because you
know something of the quality that has been built
into it.

Remember these two points when you select your
next car. These are combined in an uncommon de-
gree in the Ford.

Come in and drive a Ford car yourself through thick-
est traffic, up steepest hills, over roughest roads. A
thirty-minute demonstration will convince you that
there is nothing quite like it anywhere in simplicity
of design, quality, price and performance.

TENDERS WANTED

SEALED TENDERS addressed to the
Undersecretary and endorsed on the en-
velope "Tender for Indian Residential
School on the Blackfoot Indian Re-
serve, near Glen, Alta." will be
received up to noon of the 5th day of
August, for the erection of the above
mentioned building.

Plans and specifications may be seen
at the Post office at Calgary, Beasano,
Lethbridge, Medicine Hat and the In-
dian Office at Gleichen, Regina, and
Winnipeg, and at the Department of
Indian Affairs at Ottawa.

Each tender must be accompanied
by an accepted cheque on a chartered
bank of Canada for ten per cent of the
amount of the tender, payable to the
order of the undersigned, (War Bonds
of the Dominion or Canadian National
Railway Bonds will also be accepted
as security, or Bonds and cheque if re-
quired to make up an odd amount)
which amount will be forfeited if the
person or persons tendering declines to
enter into a contract when called up-
on to do so, or fail to complete the
work contracted for.

The lowest or any tender not nec-
essarily accepted.

pears weekly around the world.

Town & District

The optimistic farmer has a splen-
did chance this season to show he really
means it.

In this issue L. F. Chrestenson &
Co., of Arrowood, quote some prices
you should study.

The members of the Gleichen 22nd
Battery left Monday afternoon for
their annual encampment at Barrow.

With the short straw the combies
will have a good opportunity this year
of showing what they are worth to the
farmer.

After a full week's Chautauqua en-
tertainment Gleichen folks can settle
down once more to the serious matter
of keeping cool.

The industrial end of Gleichen just
now looks up in pretty good shape
with farm implements of all kinds be-
ing set up ready for the harvest.

Monday G. C. House left with two
carloads of horses for Craigmyle,
which he will sell by auction in that
vicinity.

Rev. Mr. and Mrs. Davies, little girl
and Mrs. Palmer left Monday morning
to spend a couple of weeks visiting
friends near Saskatoon.

Tom Burns threatens to lick the ed-
itor if he ever again prints "Sunny
Southern Alberta." Tom's expression
is even better than that sound.

Mrs. Clifford is preparing to install
a frigidaire in her Rose Tea Room
and make a number of improvements
for the accommodation of the public.

G. C. House and W. W. Brown and
cowboys returned last Saturday from
their annual round-up of horses in
Crowfoot Valley. Glen says he re-
leases his wheat will yield twenty bush-
els to the acre this year.

F. L. Mallory, wife and family have
decided to leave Gleichen in the near
future and on Tuesday next, T.
H. Beach will offer Mrs. Mallory's
furniture for sale at unreserved auc-
tion. See the announcement else-
where in this issue.

J. R. Christensen, wife and
daughter of Lake McGregor were vis-
itors to Gleichen for the first time in
twelve years. They noticed many
changes here in that time. Their old
friends were pleased to meet them a-
gain.

Saturday afternoon, August 17th,
Simpson Magistrate Shearer, of
Arrowood will hold the first Small
Debits Court under the amendments
made last session by the Alberta Gov-
ernment, in the Gleichen Community Hall.

Glen is usually optimistic but Mon-
day he had objected to such cold
weather after the great rain—wonder
how Glen got that way?

On Friday, August 2nd, a social
dinner will be held in the Cluny Drug
Store Hall to which one and all are
cordially invited to attend and join in
having a good time.

H. W. Marcellus and Orland Lyons
returned from a trip through the
state of Washington, visiting many
points and enjoying the wonderful
scenery of the mountains. Orland
states they were offered near beer,
but that was beneath the dignity of
good Catholics.

Arrangements are being made for
a number of Gleichenites to take a
motor trip to Beasano and Brooks
next Monday to view what has been
accomplished by these towns in the
way of growing trees, etc. The 20-
year-old suggestion of bringing ir-
rigation into Gleichen for use along
the streets and in the gardens is a
gain being considered. Let it be
hoped something will be accomplished this
time.

COMING EVENTS

Aug. 2—Social Dance at Cluny Drug
Store Hall.
Aug. 6—T. H. Beach will sell Mrs.
F. L. Mallory's household effects.
Aug. 17—Small Debits Court will be
held in Gleichen.

M. MURRAY,

Secretary-Treasurer.

The secretary of the bar association
was very busy and very cross
one afternoon, when his telephone
rang.

"Well, what is it?" he snapped.

"Is this the city gas works?" asked
a woman's soft voice.

"No, madam," roared the secretary.
